

AEVUM BIO CLINIC

Evidence-Based Care. Personalised For You.

AEVUM BIO CLINIC

Founding Clinician Information Pack

Welcome to Aevum Bio Clinic

Building the Future of Preventive Healthcare

Thank you for your interest in joining Aevum Bio Clinic.

Aevum Bio Clinic is an Australian telehealth clinic dedicated to delivering evidence-based, patient-centred healthcare with a focus on prevention, metabolic health, weight management, women's health, fertility and long-term wellbeing.

Our vision is simple: to help Australians live healthier, longer lives by making high-quality preventative healthcare more accessible.

We believe healthcare should go beyond treating illness. It should empower patients through education, early intervention and collaborative care that supports lasting health outcomes.

As one of our Founding Clinicians, you'll have the opportunity to help shape the future of Aevum Bio Clinic from the very beginning. We're building a team of passionate healthcare professionals who value clinical excellence, compassion, integrity and innovation.

Whether your expertise lies in weight management, women's health, fertility, lifestyle medicine or preventative care, you'll be joining a clinic committed to delivering exceptional patient experiences and supporting clinicians to do their best work.

Our Vision

To become Australia's trusted provider of evidence-based preventative healthcare, empowering people to achieve better long-term health through compassionate, collaborative and innovative care.

Our Values

- Clinical Excellence
- Integrity

Why Join Aevum Bio Clinic?

We're creating more than a telehealth service—we're building a modern healthcare practice where clinicians are valued, supported and empowered.

What We Offer

Flexible Work

- Choose the days and hours that suit your lifestyle.
- Work remotely from anywhere in Australia.

Competitive Revenue Share

- Earn **between 40% to 70% revenue share**, dependent on experience, qualifications, scope of practice and the services provided.

Founding Clinician Opportunity

- Be part of building a premium Australian healthcare brand from the ground up.
- Contribute to clinical pathways, service development and future growth.

Clinical Autonomy

- Practise within your professional scope using evidence-based medicine.
- Deliver personalised care while working within Aevum's clinical governance framework.

Administrative Support

- Appointment scheduling
- Patient administration
- Secure telehealth platform
- Clinical documentation systems

AEVUM BIO CLINIC

Evidence-Based Care. Personalised For You.

-
- Ongoing operational support

Collaborative Team

- Work alongside experienced healthcare professionals with shared values and a commitment to high-quality patient care.

Why Aevum?

We're looking for clinicians who are passionate about prevention, education and building long-term relationships with patients—not simply providing transactional healthcare.

About the Opportunity

Current Opportunities

We are currently seeking expressions of interest from:

- General Practitioners
- Endorsed Nurse Practitioners
- Women's Health General Practitioners
- Fertility & Reproductive Health Clinicians
- Dietitians (future opportunities)
- Allied Health Professionals (future opportunities)

Our Patients

Aevum supports adults seeking evidence-based care across:

- Weight Management
- Metabolic Health
- Preventive Healthcare
- Women's Health
- Fertility Support
- Lifestyle Medicine
- Healthy Ageing

AEVUM BIO CLINIC

Evidence-Based Care. Personalised For You.

What You'll Do

- Conduct telehealth consultations.
- Develop personalised management plans.
- Support patients through shared decision-making.
- Prescribe within your professional scope and in accordance with relevant legislation and clinical guidelines.
- Coordinate care with other healthcare providers where appropriate.
- Maintain high-quality clinical documentation.

Who We're Looking For

We're seeking clinicians who demonstrate:

- Current AHPRA registration (where applicable)
- Excellent communication skills
- Evidence-based clinical practice
- A patient-centred approach
- Professionalism and integrity
- A genuine passion for preventative healthcare

Frequently Asked Questions

Are these employed or contractor positions?

Current opportunities are offered on a contractor basis, providing flexibility and autonomy.

What is the remuneration?

Clinicians can earn **up to 70% revenue share**, with remuneration determined according to experience, qualifications, scope of practice and the services provided.

Can I continue working elsewhere?

Yes. Many clinicians choose to combine Aevum with their existing practice or other professional commitments.

AEVUM BIO CLINIC

Evidence-Based Care. Personalised For You.

Is there a minimum number of hours?

No. We offer flexible scheduling, allowing clinicians to determine their own availability.

Will patients be provided?

Yes. Aevum is responsible for marketing, patient acquisition and appointment bookings.

What support will I receive?

You'll receive administrative support, access to our secure telehealth systems, clinical resources and ongoing operational assistance.

What software is used?

Aevum utilises secure, cloud-based clinical software to support appointments, documentation and patient management.

What is the recruitment process?

1. Initial conversation.
2. Informal interview.
3. Credential and registration verification.
4. Contractor agreement.
5. Onboarding and system orientation.
6. Commence consulting.

Join Us

If you're looking for a flexible opportunity where you can help shape the future of preventive healthcare while delivering meaningful, evidence-based care, we'd love to hear from you.
